PROFILE SUMMARY

Computer Engineering student with knowledge of **MERN stack** and hands-on experience building web applications using **React.js, Node.js, and MongoDB**. Familiar with **REST APIs, authentication, and responsive frontend development**. Interested in learning new technologies, improving problem-solving skills, and starting a career as a **software developer**.

SKILLS

- **Programming Languages:** JavaScript, Java, SQL
- **Frontend Development:** React.js, HTML5, CSS3, Tailwind CSS, Responsive Design
- **Backend Development:** Node.js, Express.js, REST APIs, JWT Authentication
- **Database:** MongoDB, MongoDB Atlas
- **Core Concepts:** HTTP & REST, Client-Server Architecture, MVC Pattern, OOP Basics
- **Tools & Technologies:** Git, GitHub, Postman, VS Code

EDUCATION

- ❖ **B.E. Computer Engineering** | S.N.D. College, Yeola | **8.25 SGPA** | 2022 – 2026
- ❖ **XII (HSC) - Science** | Enzo-Chem Jr. College, Yeola | **69.67%** | 2021 – 2022
- ❖ **SSC (10th Standard)** | New English School, Savargaon | **80.40%** | 2019 – 2020

PROJECTS

Farmer One Stop Solution with AI Integration | MERN Stack | AI Advisory | REST APIs | [Link](#)

- Developed a full-stack web application to provide farmers with **weather updates, mandi prices, and marketplace features** (buy/sell/rent).
- Built backend APIs using **Node.js and Express.js**, integrated **MongoDB**, and implemented **JWT authentication** for secure access.
- Added real-time and interactive features such as **chat/notifications** and designed a responsive UI using **React.js**.

DevTrack AI – Developer Productivity Analytics Platform | MERN Stack | GitHub API | [Link](#)

- Developed a full-stack MERN application to visualize **GitHub user activity** such as repositories and commits.
- Built RESTful APIs using **Node.js and Express.js** to fetch and process data from GitHub, and implemented **JWT authentication** for secure access.
- Designed a responsive dashboard using **React.js** and deployed the application using **Vercel and Render**.

Auth Dashboard Application | React.js & Vite | [Link](#)

- Developed a React-based authentication system with **signup and login functionality** and persistent user sessions.
- Used **Context API and React Hook Form** to manage application state and handle form validation.

CERTIFICATIONS & ACHIEVEMENTS

Job Ready Cohort | Sheryians Coding School | Nov 2025

- Completed hands-on training in **MERN stack** and built full-stack applications with API integration and authentication.
- Worked on developing projects using **MongoDB, Express.js, React.js, and Node.js**, gaining practical understanding of backend and frontend development.

Agile Scrum Master | Simplilearn SkillUp | Jan 2026

- Learned the basics of **Agile and Scrum methodology**.
- Gained understanding of how teams plan and manage tasks in a project environment.

Sheryians Online Hackathon (Frontend) | 2025 | [Link](#)

- Built a responsive e-commerce web application “**Sarga Perfume**” using React.js with a focus on clean UI and smooth user experience.
- Created reusable components and improved overall performance and responsiveness across different devices.
